# antiviral aerosol room fogger

Providing peace of mind with antiviral disinfection and protection.

A single use canister for complete room disinfection. Simply place the canister in the room and activate the fogger for quick, easy and effective disinfection.

Once activated it releases its contents within 2 minutes, creating an antiviral disinfectant fog which covers all hard and

soft surfaces, including those difficult to reach areas easily missed.

Use as part of a regular cleaning programme or to thoroughly disinfect an entire room following a potentially infectious outbreak.

## key features & benefits:

Ideal for schools, offices and hotel bedrooms

Total coverage per cannister 100m<sup>3</sup>

No residue or wetting of surface

Linen fragrance

Powerful disinfectant

Tested to BS 1276, BS 1650 and BS 14476. Kills a wide range of pathogens, including Coronavirus

Easy-to-use, simply push the button and vacate the area for 1 hour

**Code:** 28138    **Description:** Antiviral Disinfectant Room Fogger Aerosol 200ml - Pack of 1

# 12v handheld mist sprayer

A handheld and battery-powered mist sprayer, designed for sanitising small to medium areas.

With a generous 5L capacity, the sprayer projects a fine mist of droplets 50µm in size over 1.5m in distance, and at a rate of around 145ml per minute.

It is powered by a 12v rechargeable lithium battery, and has an operating time of approximately 45 minutes, while taking an hour to fully recharge. It is recommended to charge fully once every three months if it has not been used for a long time.

It can be used in airports, to clean public transport, hotels, supermarkets, hospitals, childrens parks, bars & restaurants and cinemas.

The unloaded weight is 1.4kg, and 7kg filled to capacity. The approximate coverage is 90 square metres per litre and the approximate run time on 5 litres is 30 minutes.

## key features & benefits:

Cordless and handheld for quick and easy cleaning

5 litre capacity

12v rechargeable lithium battery with 45 min operating time

CE approved

**Precautions:** Make sure that the solution is clean and free of impurities. If the amount of mist reduces, unscrew the nozzle to clean. After the container is filled it may take up to 30 seconds for the solution to reach the spray head once switched on.

**Code:** 104703

**Description:** 12v handheld mist sprayer

**Size:** 40 x 21 x 28cm

# 3l vs-300 small fogger

A lightweight, portable and ultra-low volume fogger ideal for surface and area disinfection.

It's light enough to use for fogging offices, storerooms, canteens, retail premises, hotel rooms, domestic properties and more.

The VS-300 works by expelling a fine, almost invisible mist into the atmosphere, which eventually settles on all surfaces including those impossible to reach by conventional methods.

Setting the flow rate control at level 2 will produce a dry fog, suitable for areas such as offices or where textiles or other sensitive materials/merchandise are exposed.

The powerful 1400w 230v electric motor and the ability to adjust particle size from 9µm up 49µm, makes this machine unique in this class, and suitable for the application of disinfectants, biocides, fungicides and pesticides.

## key features & benefits:

Lightweight designed for handheld use.

Adjustable flow dial from 9 to 49µm

Powerful 230v motor

3 litre capacity

**What it's for:** Regular fogging with a disinfectant will help prevent the cross-infection of viruses such as MRSA, coronavirus, and many more. Empty weight: 3.7kg

**Code:** 104696

**Description:** Small Fogger 3L VS-300

**Size:** 21 x 28 x 50cm

# large fogger 5 litre vs-500

Powerful and ultra-low volume fogger ideal for disinfecting commercial spaces.

The compact yet powerful ultra-low volume fogger is ideal for constant commercial use, while being equally suited to an office or domestic environment. The large 5-litre tank and powerful 1400w 230v electric motor allow the covering of larger areas with ease.

Use the larger VS-5 litre fogging machine for disinfection, pest control, odour control and plant protection in larger spaces.

The VS-500 works by expelling a fine, almost invisible mist into the atmosphere, which eventually settles on all surfaces including those impossible to reach by conventional methods.

Whilst comfortable as a handheld fogger the VS-500 can be positioned on the floor or counter-top. The cone is height adjustable allowing the fog to be directed for best effect.

## key features & benefits:

Powerful 230v motor.

5 litre capacity

Adjustable flow dial.

**How to adjust:** Setting the flow rate control at level 2 will produce a dry fog, suitable for areas such as offices or where textiles or other sensitive materials/merchandise are exposed. The ability to adjust the fogger output from 9 µm up to a fog 49µm, and flow rate up to 49 litres per hour makes this machine suitable for the application of disinfectants, biocides, fungicides and pesticides.

**Code:** 104697

**Description:** Large fogger 5 litre vs-500

**Size:** 50 x 17 x 50cm

# antiviral multi-purpose cleaner

Providing peace of mind with antiviral disinfection via all fogging machinery.

The newly developed Professional Antiviral Cleaning range responds perfectly to today's cleaning requirements. The range has been scientifically formulated to be highly effective against a wide range of bacteria and viruses.

The powerful Antiviral Multipurpose Cleaner has been rigorously tested by

independent scientists to be certified to the following BS EN Standards: BS EN 1276:2019, BS EN 13697:2015 + A1:2019 and BS EN 14476:2013 + A2:2019 indicating the product is effective against all enveloped viruses including Coronaviruses.

## key features & benefits:

Multi-purpose surface disinfectant

Safe on all non-porous surfaces

Suitable for food contact surfaces

Can be used with Fogging machinery

**Code:** 27725    **Description:** Antiviral Multi-purpose Cleaner 5L - Pack of 1
